TURN YOUR LAYOVER INTO A STORY

PRE-SEED · OPEN TO INVESTMENT · \$3,000,000 CAD

THE PROBLEM

Travel apps exist — but none were built for the layover moment. None check your passport for visa requirements before you land. None prepare you for your layover. None speak Yoruba, Twi, Tagalog, Hindi or Arabic. The layover is ignored.

THE SOLUTION

Interlude is built around the traveler, not the destination. Match by overlapping layover, language, hobbies and profession. Visa intelligence, airport guides, gate alerts, return reminders and group planning — in 15 languages. Free to join.
